

You may have noticed that the pond area in the field is looking a bit tidier and the flower beds in the playgrounds a bit neater! That's because some keen volunteers attended school over half term to do some gardening. We all had a lovely time! And would like to repeat this again later in the year. If you are interested in taking part next time, please let us know (no expertise required, just enthusiasm).

Here are some photos of the team in action!
