

Badger Class News

It's been all fun and games in Badger class. There has been a real buzz in the classroom linked to our dinosaur topic. We received a mysterious letter from Tracey Triceratops! She left her dinosaur eggs in our playground for us to look after whilst she went off to hunt for food. We were so privileged that Tracey trusted us with her eggs that we decided to make posters to warn people not to touch the eggs and to help protect them. We even watched a video of Tracey roaring and stomping in our Reception playground.

Then we enjoyed sports day. The children all took part and tried their very best. We started on the car park demonstrating our best: throwing skills using bean bags and the javelin, balancing skills whilst balancing a quoit on our heads and our jumping skills to see how far we could launch ourselves on the mat. We then moved onto the field and competed in races including running, egg and spoon, the obstacle course and the famous bouncy hopper race. Lots of the children said their favourite race was the bouncy hopper race. We think the children were amazing!
